What is STARSkate?

STARSkate offers opportunities for skaters of all ages to develop fundamental figure skating skills in the areas of ice dance, skating skills, free skate and interpretive skating. Unique in Canada, this program teaches figure skating skills in a group and/or private lesson format in a progressive and sequential manner and includes specifically designed awards and incentives. Skaters have the opportunity to take Skate Canada Tests through a nationally standardized testing system. Skaters who have mastered figure skating skills in STARSkate may also choose to pursue synchronized skating or pairs skating.

Options with STARSkate

Once a skater is in the Skate Canada STARSkate Program, there are several options. Skaters may choose to remain in the STARSkate Program, taking tests (although not mandatory) at organized test sessions and honing learned skills. Skaters may also choose to enter competitions, while still trying Skate Canada tests. Other skaters may feel that they have progressed to a point where they may wish to enter the Skate Canada CompetitiveSkate Program or become involved in synchronized skating, evaluating or judging, or participate as an adult or varsity member.

COMPETITIVESKATE

Skaters who wish to challenge their figure skating skills and who show potential as competitive skaters can participate in the CompetitiveSkate program.
